AVERAGE ADJUSTERS

SHIP AGENTS

Our history began in Genoa in the 1961 when the first company of Nolarma Group was established by four founding partners: Antonio Taragoni, Armando Queirolo, Massimo D'Aragona and Giuseppe Schnier under the name of Nolarma Noleggi & Armamento. The company was active as dry cargo broker, ship agent and ship manager in the international market and expanded quickly.

In 1972 Antonio Taragoni created our Tanker Department. In 1978 Nolarma Tankers and Nolarma Dry Cargo were established as stand-alone companies.

In 1997 Studio Nolarma was created acting as Average Adjuster.

Thanks to our expertise we enlarged our services throughout the years, aiming to follow our customer on a 360-degrees basis and helping them to make better choices at every stage of the shipping life cycle.

Trust is fundamental to us (without it we could not succeed): thanks to our loyalty and professional work, we built strong relationships with the most important players in the market.

Our success is led by our curiosity: we always try to anticipate future trends and seek for new opportunities.

360 DEGREES SHIPPING SUPPORT

Nolarma has decades of experience in providing a full and wide range of services to cover its clients' needs under all shipping aspects. We take advantage from our company big organization and worldwide presence to follow our customers with the utmost attention and professionalism with tailor-made solutions.

TANKER CHARTERING - PROJECTS

Our tankers chartering team is made up of extremely qualified brokers with long-term experience in the shipping industry and with a client-oriented approach.

We are providing strategic brokering and advisory services, including market intelligence reports, contributing to make our customers' business more successful.

The whole organization offers the highest standard of professionalism and around-the-clock services that meet the needs of our global clients.

Through the remarkable work and commitment of our skilled commercial and post fixture team, we have gained the trust of the most important players in the tankers market. Our clients are well-known oil companies, traders, shipowners involved in the trading and transport of crude oil, clean & dirty products, vegetable and chemicals products.

We work worldwide and our brokerage synergetic services cover all sizes of vessels, from small barges up to VLCCs and offshore units, under Spot Voyages, Time Charters, Projects (including Offshore), Contracts of Affreightment and much more.

N AVERAGE ADJUSTERS

Studio Nolarma Average Adjusters and Maritime Consultants was established on June 06th, 1997 in Genoa as a professional association of Agostino Bobbio and Mario Taragoni.

The partners are credited with Genoa Chamber of Commerce and with the Court of Appeal of Genoa, Maritime Experts Roles.

We act as Average Adjusters and Maritime Consultants for the main Hull & Machinery Italian insurance companies. Such activity is also carried out for foreign companies and foreign interests, as well as Co-Adjusters.

Thanks to the wide range of business and contacts of the company, and thanks to such a long and honourable activity, we often act as advisors and consultants for technical and legal maritime questions for and on behalf of our clients and friends.

Our experience and daily availability are a guarantee of a well-appreciated and high quality service.

N SHIP AGENTS

Professionalism, devotion and skills since 1961.

The company NOLARMA NOLEGGI E ARMAMENTO SRL, shipping agents in Italy with headquarters in Genoa, was founded in January 1961 and after more than 60 years of gathering experience in tramp shipping, we are able to provide the highest standards of agency services for our customers.

We have been one of the first agencies to be accredited with ISO 9001:2015 certification.

Our agency, known and appreciated throughout the world by all operators, is particularly specialized in the management of oil tankers, chemical tankers, gas tankers and dry cargo ships; we guarantee a 24-hours service in order to satisfy the expectations of all the shipping operators.

The professionalism, devotion and skills of our experienced staff contribute to guaranteeing all players in the complex world of shipping a tailor-made service.
